EDUCATION

Saveetha University — *Bachelor of Engineering (B.E) in Computer Science (3rd Year)* **Chennai, Tamil Nadu**

CGPA: 9.04 | Registration ID: 192472374 **Expected Graduation: May 2028**

PROFILE SUMMARY

Third-year Computer Science undergraduate (**9.04 CGPA**) targeting **Full Stack Developer** roles and engineering internships. Proven leadership as **Main Tech Lead of Synora'26 Hackathon (80+ teams)** and multiple collegiate innovation achievements. Strong foundation across MERN stack (MongoDB, Express, React, Node.js), Python system design, and AI automation.

KEY ACHIEVEMENTS & LEADERSHIP

- **Main Tech Lead & Event Lead — Synora'26 Hackathon (80+ Teams):** Spearheaded the overall execution and technical architecture for ~80 competing teams (~350+ developers); architected and operated the 4 integrated event platforms: Registration Portal, Live Event QR Attendance, Multi-Judge Rubric Evaluation, and Automated PDF Certificate Distribution Engine.
- **International Conference Research Paper Presenter:** Presented peer-reviewed research paper at the NAAC-sponsored **ICONSTEM 2025** International Conference hosted by Jeppiaar Engineering College (Nov 2025).
- **National Level Paper Presentation — ThoughtSpark:** Presented technical paper at CHIPCOMM'26 hosted by R.M.K. Engineering College (Feb 2026).
- **Lead, College Graphics Designing Team:** Directed collegiate branding, marketing creatives, and UI assets for university symposiums and flagship tech events (2024–Present).

FEATURED PROJECTS

AI Powered Real-Time Desktop Assistant | *Python, SpeechRecognition, PyAudio, pyttsx3, DuckDuckGo, Telegram* **Nov 2025–Current**

- Voice and text-driven AI assistant implementing live DuckDuckGo web search, intent parsing, OS system automation, and automated PDF report compilation dispatched to Telegram.

Aaryan Aqua Needs – Cloud GST Billing & Inventory Hub (v5.4 Pro) | *Node.js, Express, Supabase, PostgreSQL, IndexedDB, Puppeteer, WhatsApp API* **Commercial Client**

- First commercial client project deployed in production; engineered offline-first IndexedDB + Supabase PostgreSQL architecture, automated CGST/SGST/IGST tax engine, dynamic UPI QR checkouts, low-stock alerts, and automated WhatsApp PDF dispatch via Puppeteer.

Synora'26 Management Suite, Attendance & Certificate Systems | *React, Node.js, MySQL, Dynamic QR* **2025–2026**

- Engineered complete 4-platform hackathon ecosystem: team registration portal (80+ teams), dynamic QR attendance verification, multi-judge score normalization matrix, and automated cryptographic QR certificate generation with 1-click LinkedIn sharing.

Facial-Based Crime Monitoring & Alert System (WhatsApp & Telegram) **Python, OpenCV, AI**

- Engineered automated surveillance and long age-gap biometric AI matching elderly individuals (~80y) from youth reference images (15–20y) across +54y age gaps; integrated with WhatsApp & Telegram for real-time suspect alert broadcasts, Thermal FLIR modes, and Section 65B legal FIR export.

VERIFIED CERTIFICATIONS & ACCREDITATIONS (22 CREDENTIALS)

- **Full Stack Python Programming:** Python Life (Kiran Sagar, Founding Member) — *Cert ID: PL-FSP-2026 (Jan 2026)*
- **IEEE SDGthon 2K26:** 24-Hour Online Hackathon — IEEE Student Branch & SDG Cell, Panimalar Eng. College (Mar 2026)
- **National Mathematics Day Award:** Gujarat Technological University (GTU-ITR) — *Cert No: GTU-ITR/NMD/2025/1073*
- **AI & Domain Hackathons:** INNOBYTE AI Hackathon (SIMATS), CODEVOLT (Nanobiomaterials), UnsaidTalks (AI Evaluator, Emotion Encryption)
- **Collegiate Competitions:** 1st / Verified Honors in Technical Quiz, Paper Presentation, Poster Design, and Collegiate Hackathon

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript (ES6+), C, C++, SQL, Swift (iOS), HTML5, CSS3

Frameworks & Web: React.js, Node.js, Express.js, MongoDB (MERN), Flask, Redux Toolkit, Appwrite, Bootstrap, REST APIs

Developer Tools & Methodologies: Git, GitHub, AWS, MySQL, Android Studio, PyCharm, VS Code, ReportLab, Agile / Scrum, Linux
